

BTL Break to Length Sensor Probe

Model Code

BTL - T1 - T2 - T3

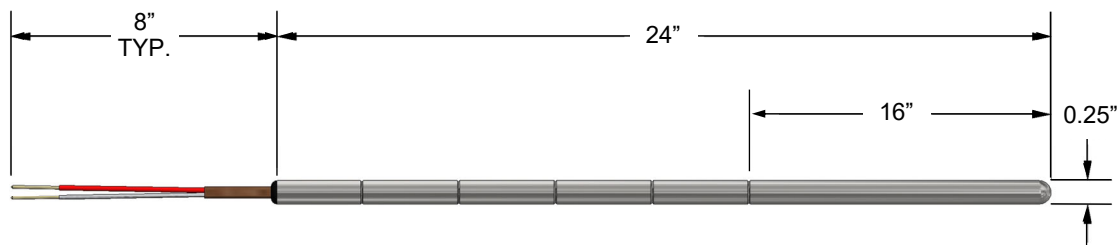

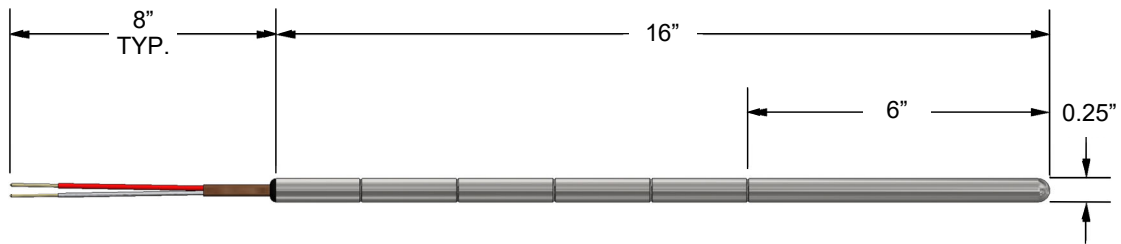

BTL Break to Length Sensor Probe

T1	Sensor Length
16	6" to 16" Adjustable length (10 x 1" adjustments)
24	16" to 24" Adjustable length (8 x 1" adjustments)

T2	Sensor Probe Temperature Rating
LT	Low temperature (-50 to 260°C)
HT	High temperature (-50 to 482°C)

T3	Temperature Sensor Type
RTD	RTD = 100ohm Pt. 385 Class A RTD - 4 wire
J	Type J thermocouple (white / red)
K	Type K thermocouple (yellow / red)

Outline & Dimensions

NOTES:

1. Part number example: BTL-16-LT-RDT or BTL-24-HT-K
2. Sensor sheath material is 316/316L stainless steel
3. Lead wire insulation for LT models is Teflon and Fiberglass for HT models
